TEENAGE MUTANT NINJA TURTLES IV TURTLES IN TIME

TURTLE POWER 16-BIT STYLE!

This is definitely a cart that we were eagerly awaiting and the crew at Konami has not let us down. Turtles 4: Turtles in Time is one of the best looking, best sounding carts that we saw at the CES. The animation is absolutely incredible and the Turtles have over 20 different moves through tons of animations for attack, pain and death. The game play is solid and fans of the first and second coin-op will be very familiar with the controls. There are quite a few new moves that the Turtles can perform, such as one we call the Droopy Dog move. The Turtles will grab a Foot Clan soldier by the arm and slam him in the ground. There are also two new games within the cart that can be selected before playing. You can try your skills at defeating enemies in record speed in the Time Trials Mode. You can even challenge a fellow player in the Versus Mode for some rough and tumble Street Fighter 2 style action!

AWESOME MODE 7 SCALING!!!

MORE THAN 20 AWESOME MOVES!!!

With the added power of 16-Bit technology, Konami brings the Turtles to life with colorful graphics, awesome animation and incredible sound. One of our favorite moves is the one you see to the left. You can actually hurl an enemy into the foreground of the screen thanks to great Mode 7 scaling. All in all, this is the best Turtles adventure yet, and will be a hot game to watch for in the near future.
