is sure to be popular with
people of all ages.*

Western Gun

Features

- With comical movement and sound the cowboys can be moved to any direction on the screen.
- Shooting direction can be changed to the upper, middle, or lower.
- Bullet ricochets when it hit a rock, while a cactus is broken by the bullet.
- Realistic actions are expressed when the cowboy is shot down.
- Compact cabinet design for two-player game.

How to play

1. Insert coin to start the game.
2. Move your cowboy up or down, right or left on the screen by handling the long lever, and shoot the opponent cowboy by pulling the trigger.
3. Change the shooting direction by operating the short lever.
4. The game is won by either player who shot opponent cowboy in more times than other's within the playing time.
5. The figures on the lower middle of the screen show the playing time, and the game continues until the figures come to 0.
